Social Circle Farmer's Market

Join us at the Farmer's Market in Friendship Park. Stroll through the park and explore a handpicked selection of local farmers, bakers, and artisans. Enjoy live music as you shop, snack, and support small businesses that bring heart and flavor to our community. Whether you're a Social Circle regular or just passing through, this charming evening market is the perfect place to stock up, relax, and soak in the small-town spirit. This event is held on the 1st and 3rd Thursday of each month through October, from 4–7 PM at Friendship Park. It is also free to attend & family-friendly! Interested in becoming a vendor? Email events@socialcirclega.gov to request an application.

CPR Training Course

The Social Circle Fire Marshal's Office is offering a CPR Training Course on Saturday, September 13, from 9 AM to 1 PM at Fire Station 6, located at 165 E. Hightower Trail in Social Circle. This hands-on training will cover how to perform CPR on adults, children, and infants, how to respond to cardiac emergencies, and when and how to use an AED. The cost is \$40 per person, and space is limited. To reserve your spot and make payment, call 770-464-0621. This is a valuable opportunity to learn life-saving skills that could make a critical difference in an emergency.

W.H. Stanton Memorial Library

Annual Gas Safety Reminder

Natural gas, America's most popular home heating fuel, is increasingly popular for use by homeowners, schools, businesses, factories, and electric power generation plants because it is efficient, clean, reliable, and a relative bargain compared to alternative energy sources. In our community, the City of Social Circle provides natural gas to more than 1,100 customers through a network of underground distribution lines. Main gas lines, typically 2-inch in diameter and buried 12- to 18-inches below the surface. To protect you and others in the community, the federal and state government, along with your utility provider, have made your safety a high priority. Any time you dig or move earth in any way, you are required to "Call Before You Dig" 48 hours before beginning any digging. When you call 811, they will contact utility owners who will locate all buried utility lines on your property so you can safely dig and prevent a potentially hazardous condition. Failure to use the 811 system is a known cause of pipeline accidents. Calling before you dig can prevent a costly or even deadly mistake. For more information, see www.Georgia811.com, socialcirclega.gov or call City Hall at 770-464-2380. Natural gas is a colorless, odorless gas. A chemical that smells like rotten eggs is added to help detect a possible leak. Some of the signs of a gas leak include seeing bubbling water, hearing a hiss or blowing sound from a pipeline or appliance, dead or discolored vegetation in an otherwise green area, dirt or dust blowing from the ground, or the smell of rotten eggs. If you smell gas or think you might be smelling gas, leave the area immediately and call your local gas provider at 770-464-2380 or 911 from a neighboring home or business. Never turn on or off switches or use a flashlight or phone in the presence of the gas smell because an electric spark could ignite the gas, causing an explosion. For your part to familiarize yourself and your family with these natural gas safety tips and continue to enjoy the value, comfort, and benefits of America's cleanest, most efficient energy source. This message is brought to you by the City of Social Circle as a public service. To learn more about our natural gas service and the benefits of natural gas, call 678-758-4256.
